Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Amendment

Applicant has cancelled claims 1-19, 21-23, 25-26 and 32 as per amendments filed on 03/03/2005.

Claims 33-40 has been added by the applicant.

Election/Restrictions

- I. Claims 1-19, were drawn to provide an API operable to select a printing method that will print the documents using preset printer settings or choose options relating to the specific printer or choose a printer from a number of available printers, classified in class 358, subclass 1.14, 1.15.
- II. Claims 20-40, are drawn to a selection method for determining an appropriate destination, autonomous network service and redirecting the browser to the destination, classified in class 709, subclass 203.

Newly submitted claims 20, 24, 27-29, 30, 31, and 33-40 (group II) are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

The group I of the claims, which includes claims 1-19, are directed to determining an appropriate printer destination and selecting one of the printer method from at least two of a printer list destination method, a printer destination method, and a print now destination method for printing the documents. In general, the first group of claims is directed to the selection of an appropriate printer for printing purposes.

The group II of the claims, which includes claims 20-40, are directed to an autonomous network service, where a browser extension in the browser automatically accessing user profile

and getting a criterion for selecting a method for determining an appropriate destination and redirecting the browser to the selected destination using the reference.

Because these inventions are distinct for the reasons given above and the search required for Group 1 is not required for Group 2, restriction for examination purposes as indicated is proper. The searching for Group I would be different from that required for group II and would cause undue burden to the Examiner. See MPEP § 808.02.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
